**‘For the master’s tools will never dismantle the master’s house. They may allow us to temporarily beat him at his own game, but they will never enable us to bring about genuine change.’**

Audre Lorde (1984)

**“No one ever accused the God of monotheism of objectivity, only of indifference”**

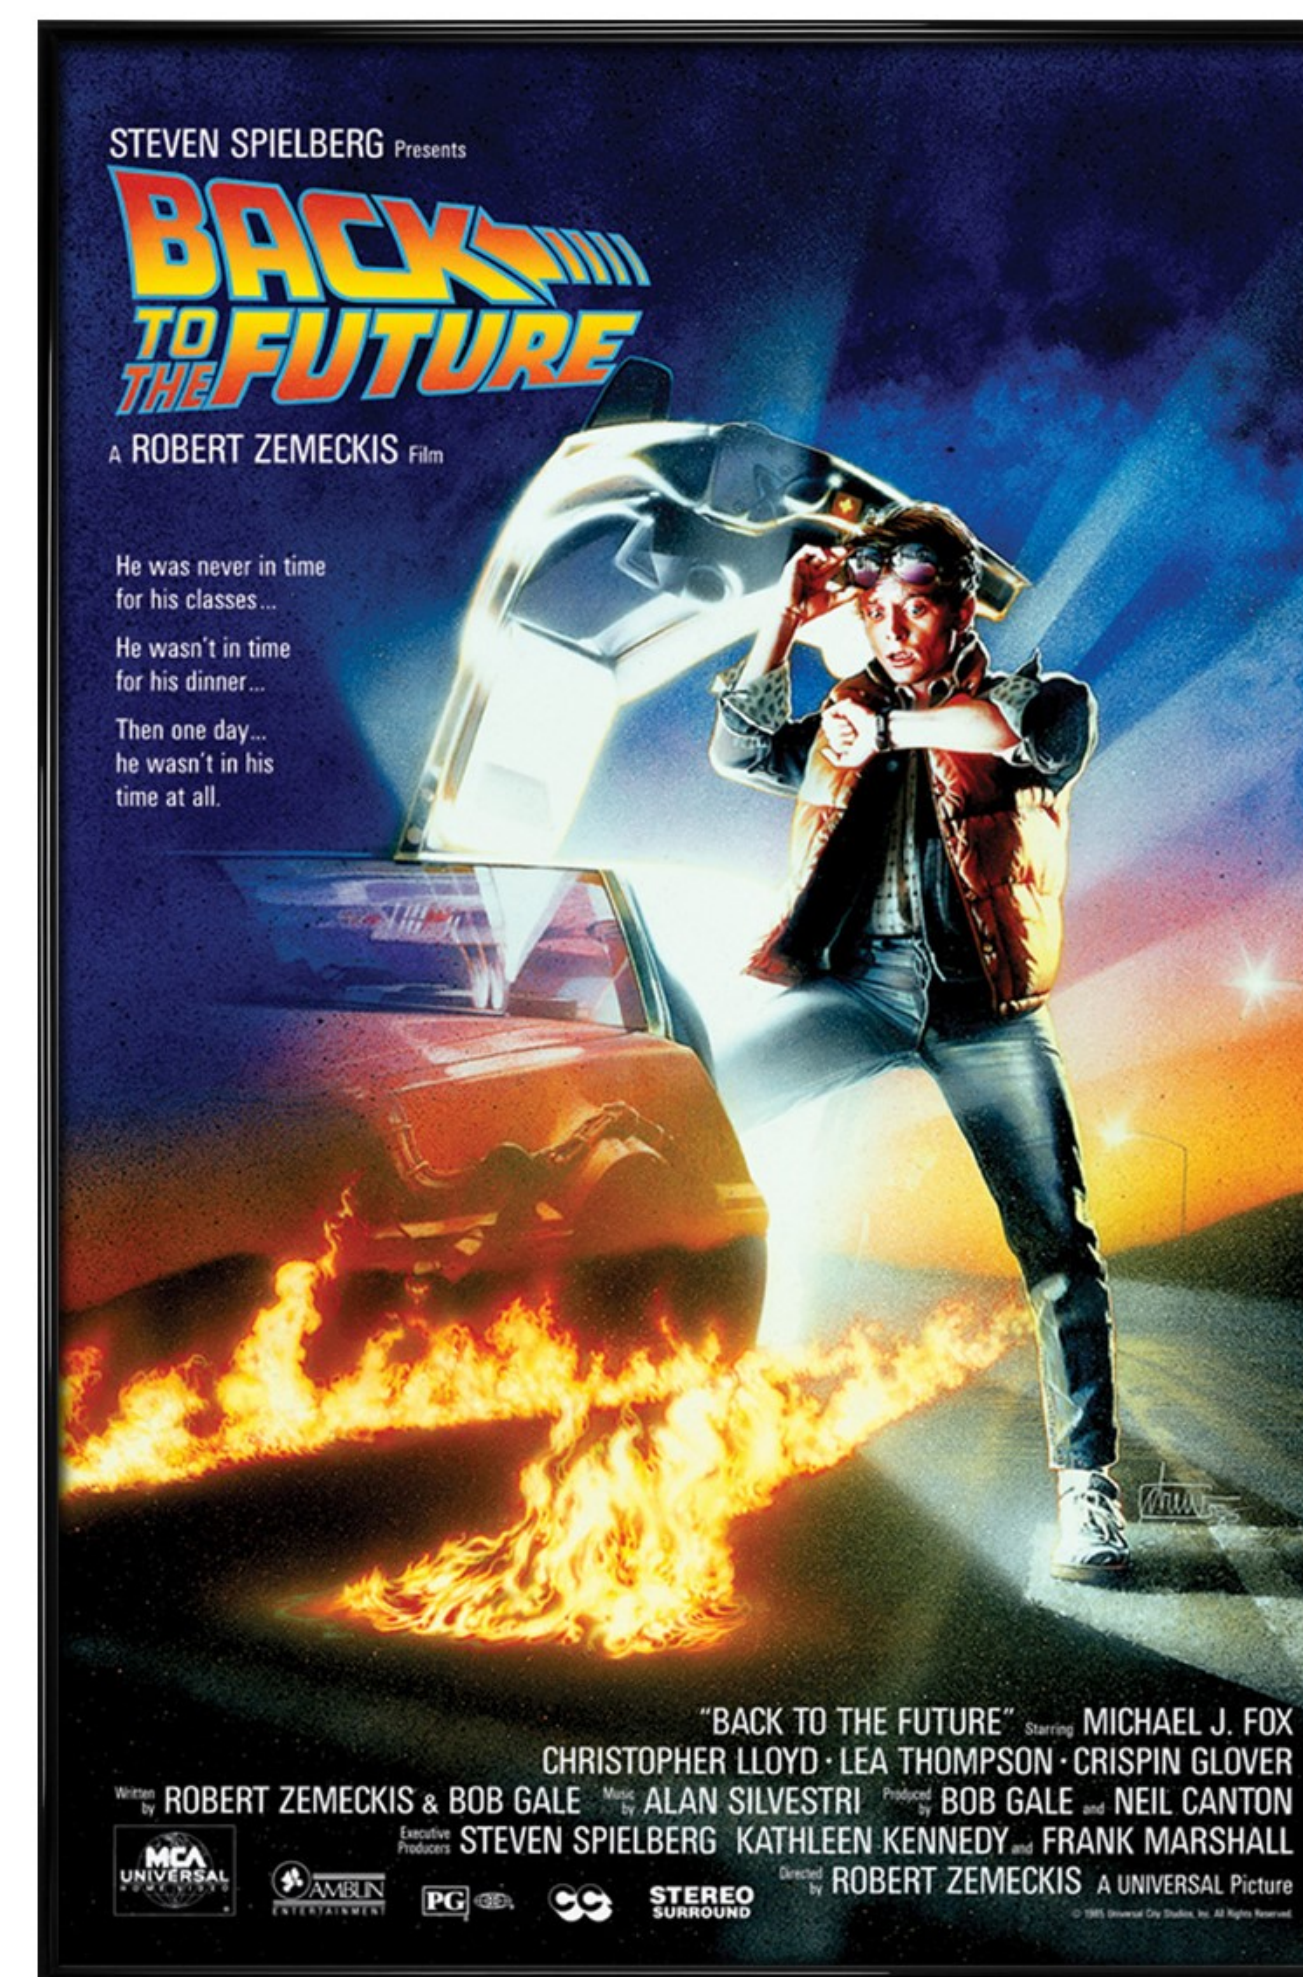

Donna Haraway (1988)

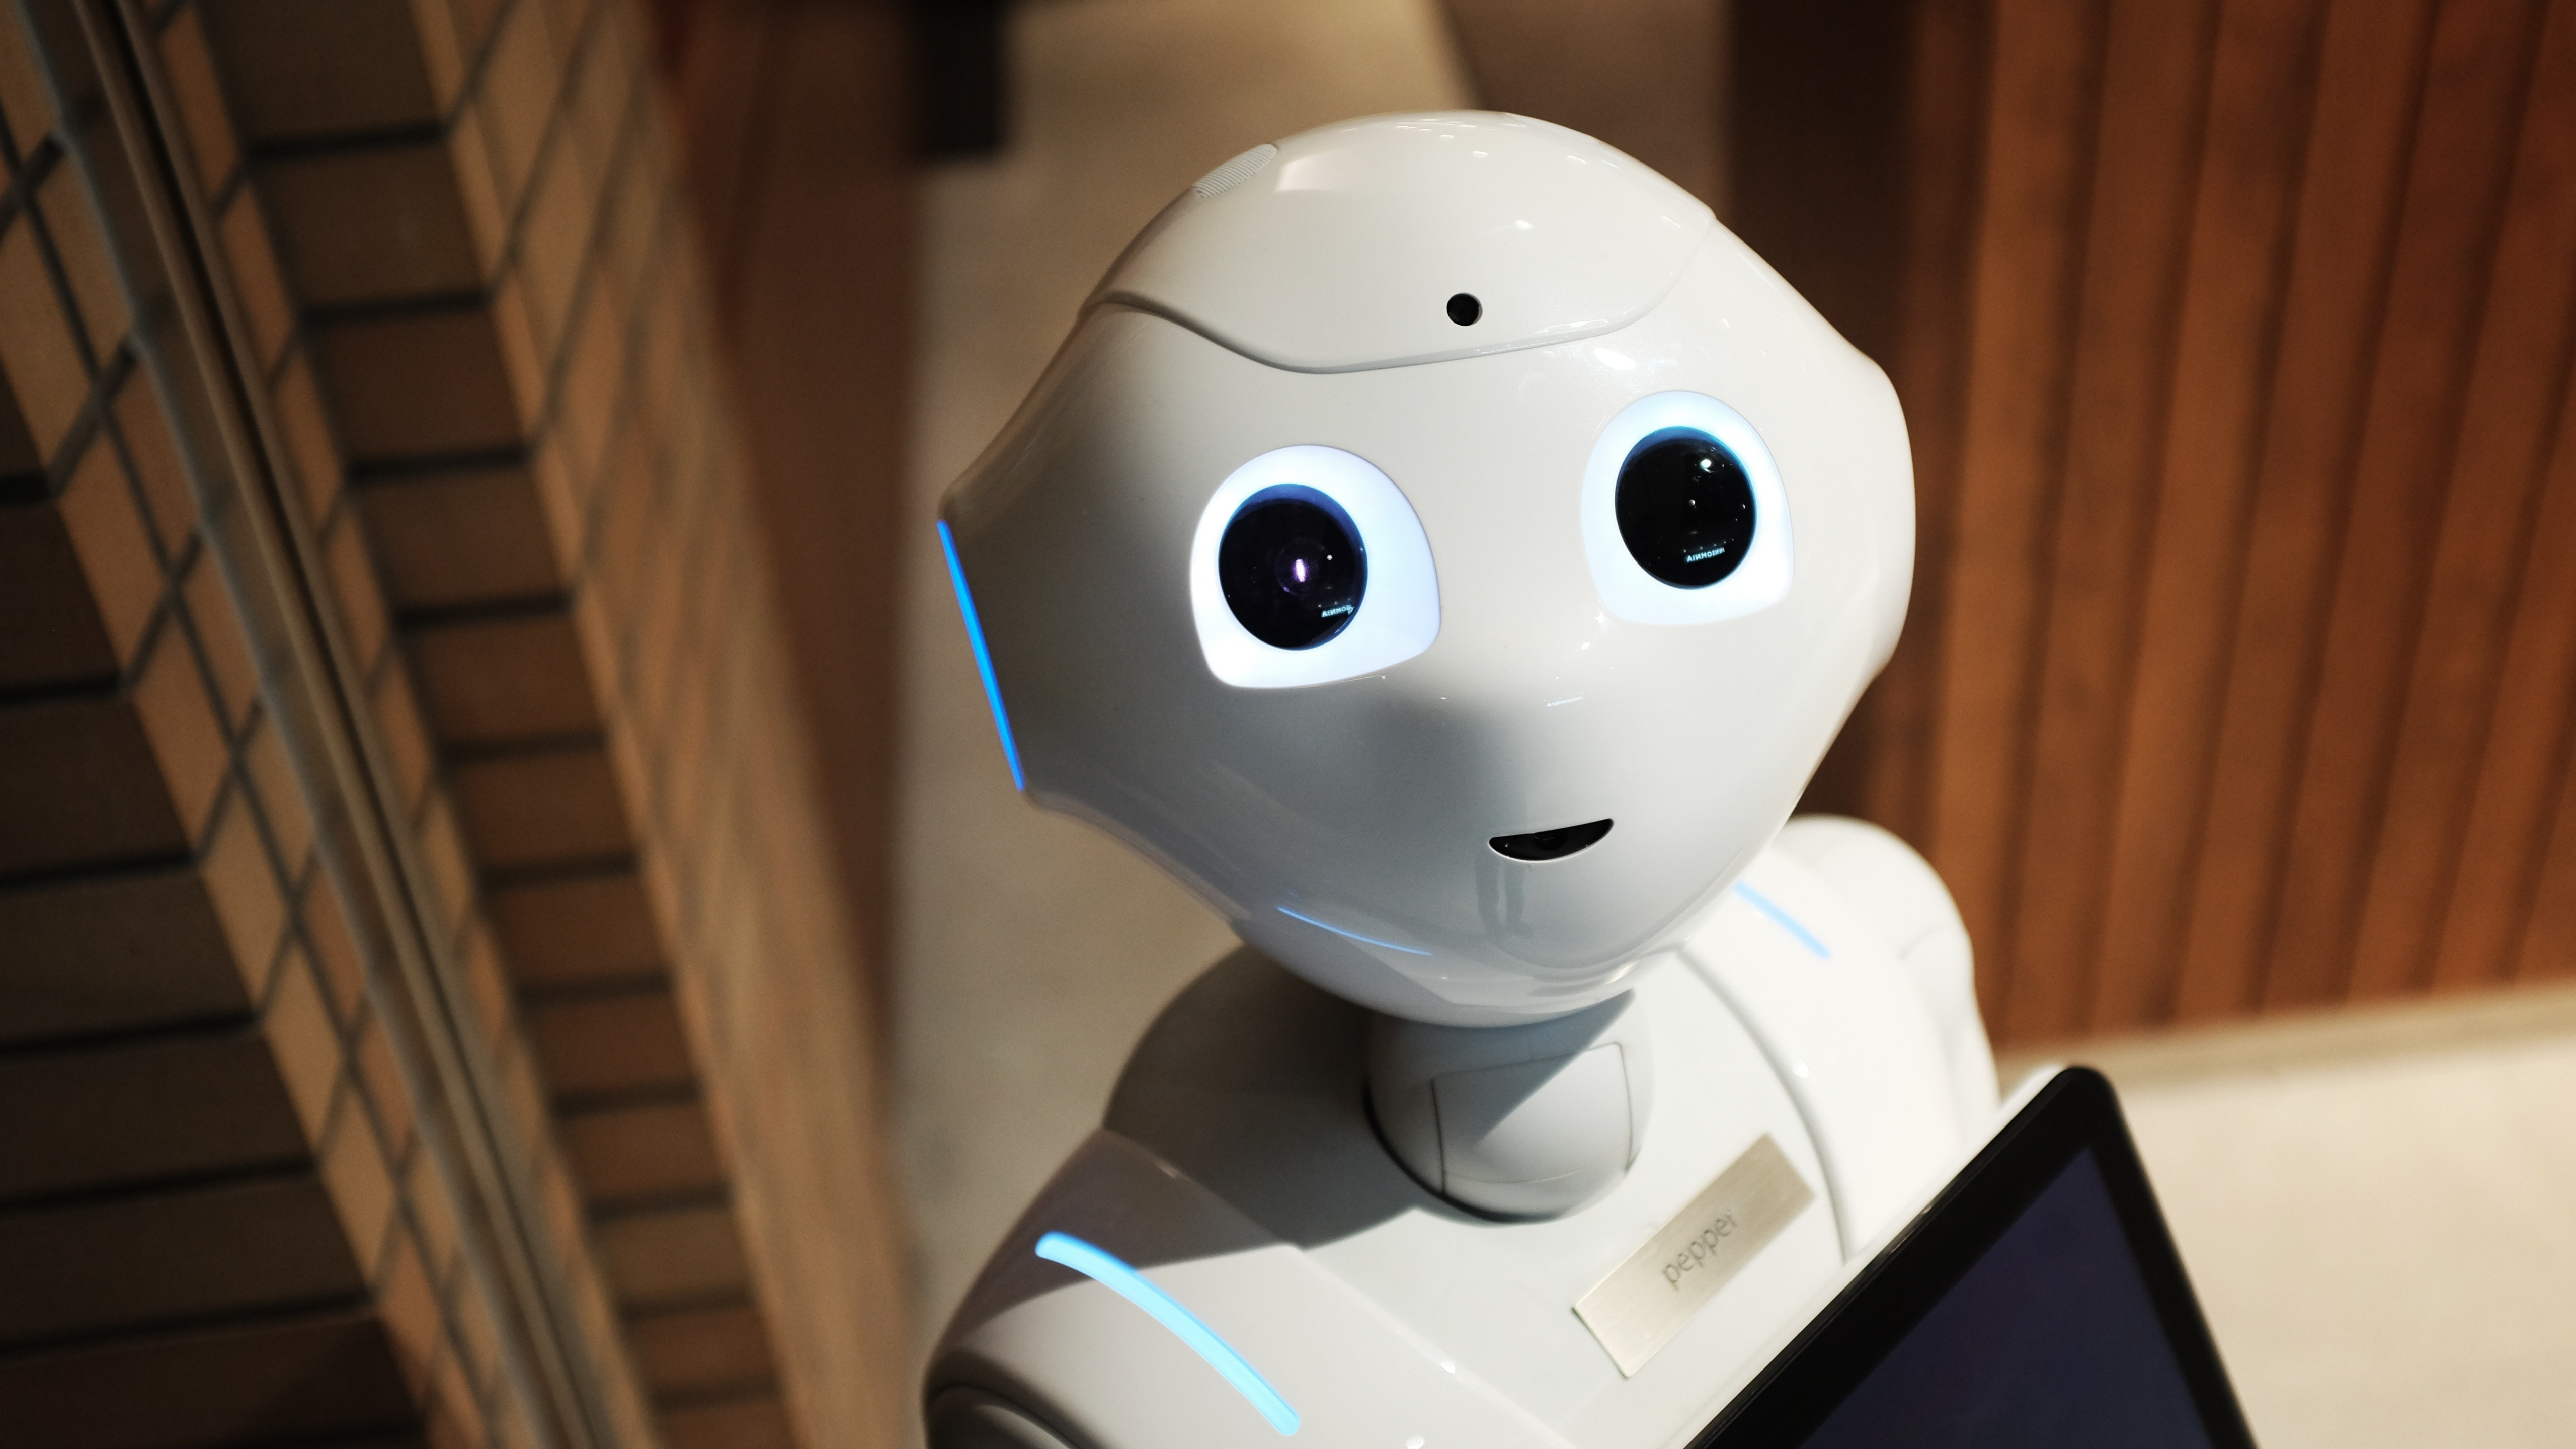

# Leaving the past?

Machine learning is the technical practice of imagining the future as our past

The fundamental assumption of machine learning is that the past will be predictive of our future.

That casting the past into future lends us only the ability to reproduce that past.
